MELBOURNE, No. 62 Broadway.—"The Two Orphans."

ART UNION, No. 427 Broadway.—"The Two Orphans."

New York, Monday, February 11, 1861.

RAILS FOR THE PACIFIC.

New York Herald—California Edition.

The steamship North Light, Capt. Thirklehead, will leave this port to-day, at noon, for Aspinwall.

The mails for California and other parts of the Pacific will close at ten o'clock this morning.

The New York Herald—California Edition—containing the latest intelligence from all parts of the world, with a large quantity of local and miscellaneous matter, will be published at half-past eight o'clock in the morning.

Single copies in wrappers, ready for mailing, six cents. Agents will please send in their orders as early as possible.

The News.

Much excitement was created in this city on Saturday by the receipt of a despatch from Savannah, Georgia, stating that five New York vessels had been seized in that port by order of the Governor, in retaliation for the recent seizure in this city by our Metropolitan police of arms about to be shipped to Georgia. The news of the seizure of these vessels also caused quite a sensation in Washington, and in the House of Representatives Hon. John Cochrane, of this city, offered a resolution calling on the Secretary of the Treasury for any information he may have received on the subject, which resolution being objected to, Mr. Cochrane gave notice he would present it again to-day. The Georgia arms seized by our police were on Saturday given up by the authorities here to Mr. G. B. Lamar, the agent in this city of the Savannah consignees, and intelligence of the fact immediately telegraphed to the Collector of the port of Savannah. By a despatch which we give in another column, it will be seen that, immediately on the fact of the restoration of the arms to their rightful owners being made known to Governor Brown, he ordered the release of the seized vessels, and they were accordingly given up on Saturday.

We publish to-day an interesting account of the proceedings of the Southern Congress, the election of Hon. Jeff. Davis, of Mississippi, and Hon. A. H. Stephens, of Georgia, as President and Vice President of the Southern confederacy, together with their personal history and the new constitution adopted. Also statistics in reference to the seceding States and a brief account of the new capital, Montgomery, Alabama. It was stated in Washington last night that information had been received of the appointment by the new government of ministers to represent it at the various European courts.

The War Department at Washington has advised from Major Anderson, at Fort Sumter up to the 7th inst. He is in good spirits, and prepared for whatever may come. He seems to anticipate an early attack from the Carolinians, but thinks, however formidable it may be, he can maintain his position for an indefinite period. He has been informed by government that should an attack on him be commenced he will be immediately reinforced. It is said that leading secessionists in Washington advise the South Carolinians still to postpone the attack on the fort. It is also reported that the South Carolina authorities themselves are disposed to pass over the whole business connected with the seizure of Sumter to the Congress of the new Southern confederacy. Indeed, it is even stated that the whole subject of the possession of the Southern forts will be passed over to this body for its action.

Colonel Judge, of Alabama, has called on President Buchanan, with a view of entering into negotiations for the transfer of the United States forts and other government property in Alabama to the government of that State. The President, however, declines to recognize him in an official capacity.

Our readers will remember that the telegraph several days ago reported the seizure of the United States Arsenal at Little Rock, Arkansas, by the State authorities. That despatch, however, seems to have anticipated the event, as the Arsenal was not taken possession of until Friday last. On that day, as we learned by telegraph from Memphis yesterday, it was surrendered to the State. It contained nine thousand stand of arms, a large amount of ammunition and forty cannon, among which latter was included the famous battery of Captain Bagg, of "the little more grape" notoriety in the Mexican war.

The Peace Conference at Washington did no business on Saturday except filling up the committee appointed to devise some plan of adjustment between the North and South. The Conference meets again to-day. Twenty States were represented on Saturday, and the representative from another State is expected to take part in to-day's deliberations. The committee of one from each State, to prepare propositions of adjustment is expected to be ready to report to-morrow. A synopsis of the propositions which it is thought the committee will lay before the Conference is given in our Washington despatches this morning.

Thurlow Weed left the Astor House yesterday afternoon for the Peace Conference at Washington, as an outside delegate. He was accompanied by a number of prominent republicans, who will join him in urging the republican commissioners to accept the ultimatum which the border States shall present. It was stated by members of this body, before their departure, that they were fortified by recent instructions from Mr. Lincoln advising their proposed course.

The Twenty-five Million Loan bill of Congress was signed by the President on Saturday. It is said, however, that the capitalists of New York and Boston will not take the loan to any considerable extent unless the republican members of Congress evince more disposition than they do at present to bring about an adjustment of the national troubles.

General Scott has written to the Scott Life Guard, of this city, who had tendered to him their services for the protection of the capital, that the government does not contemplate calling thither any troops except the District of Columbia militia and a few detachments of regulars. All offers of volunteers, therefore, for that service are declined. Lieutenant Rogers and Schumaker, late of the revenue cutter Lewis Cass, recently seized at Mobile, arrived in this city yesterday morning, per steamship Mount Vernon, from Savannah. The former captain had been reinstated by the State authorities.

Our advices state that on the day for counting the votes for President and Vice President in Congress (Wednesday next) the United States troops at Washington and the militia of the District of Columbia will be placed on a war footing. General Scott, it appears, has made full preparations for guarding the city against any attacks on the day of the inauguration of the new President. The regular troops will be placed at all available points, and will take no part in the procession. The district militia, however, will join in the procession. It is stated that the President has had orders of nearly five hundred thousand volunteers; but both he and General Scott declare that there is at present no authority to accept any such offers.

The steamship Canada, from Liverpool on the 26th ult., via Halifax 7th inst., arrived at Boston yesterday afternoon. We gave a telegraphic summary of her news, received from Halifax, in Friday morning's Herald. Her mails will arrive in this city this morning.

We publish to-day a full and interesting account of the extraordinary legitimacy case involved in the marriage of the late Prince Jerome Bonaparte with Miss Patterson, of Baltimore. The affair is now attracting the attention of the European public, inasmuch as a suit is in progress before the French tribunals, instituted by Madame Bonaparte and her son, to recover the rights and titles and a portion of the personal property of the deceased Prince. The facts are succinctly stated in the article we translate, and will be found highly interesting. The result of the present trial is being looked for with much anxiety, as it is well known that, although the marriage was annulled by the Archbishop of Paris and the civil decrees of the Emperor, the Pope of Rome had always refused to issue a bull of nullification.

The ninth anniversary of the Church of the Holy Trinity, corner of Clinton and Montague streets, Brooklyn, last evening. After the usual evening service the Rev. Mr. Jessup read the annual report, from which we glean the following facts:—The society is in a prosperous condition, and all they want is to be able to pay off the mortgage of \$10,000 which is on their building. This they hope soon to be able to accomplish. The receipts for the last year amounted to \$7,043 98, the payments to \$3,776—leaving a balance of \$3,267 after deducting over \$1,100, which has been transferred to the building fund. In the home for the aged there are twenty-four inmates, and in the orphan house forty-six, making a total of seventy depending upon the society for support. The sermon was preached by the Rev. Dr. Vinton, of Pennsylvania, and the following persons assisted in the service:—Bishop Potter, Rev. Dr. F. Vinton, of New York; Rev. Dr. Littlejohn and the Rev. Messrs. Canfield, Adams, Gulon, Diller, Hasdin and Davis. The church was densely crowded, and the collection that was taken up showed the deep interest felt in the prosperity of the society.

In consequence of the failure of the Board of Supervisors to pass the tax levy the Comptroller was unable to furnish funds to pay the police in this emergency Mr. Devlin advanced the amount, \$120,000, without interest; and he will place in the hands of the Commissioners of Education a sufficient sum to pay the school teachers.

The Central Park was visited yesterday by nearly as many persons as on Saturday, but the ice was in a very bad condition, owing to the thaw. The majority of the visitors roamed about the Park, and by half-past six they had nearly all disappeared.

The cotton market on Saturday was without change of moment in prices, while the sales embraced about 800 a 900 bales, closing within the range of 11½c. to 11½c. Flour was inactive, the market closing at a decline of about 50c. per barrel, while sales were moderate. Wheat was inactive and prices heavy, owing to the firmness in freight and the heaviness in sterling exchange. Corn was lower, but in fair demand, with sales of old Western mixed, in store, at 65c. a 65½c., and delivered at 66c. a 67c.; new white Southern at 62c. a 74c. Flour was quiet, while prices were steady. Sales of men were made at \$17 50 and new prime at \$18. Sugar was dull, with sales of 400 a 500 lbs. Cuba, at about 50c. per barrel, while sales were moderate. "Heat was inactive and prices heavy, owing to the firmness in freight and the heaviness in sterling exchange. Corn was lower, but in fair demand, with sales of old Western mixed, in store, at 65c. a 65½c., and delivered at 66c. a 67c.; new white Southern at 62c. a 74c. Flour was quiet, while prices were steady. Sales of men were made at \$17 50 and new prime at \$18. Sugar was dull, with sales of 400 a 500 lbs. Cuba, at about 50c. per barrel, while sales were moderate. "Heat was inactive and prices heavy, owing to the firmness in freight and the heaviness in sterling exchange. Corn was lower, but in fair demand, with sales of old Western mixed, in store, at 65c. a 65½c., and delivered at 66c. a 67c.; new white Southern at 62c. a 74c. Flour was quiet, while prices were steady. Sales of men were made at \$17 50 and new prime at \$18. Sugar was dull, with sales of 400 a 500 lbs. Cuba, at about 50c. per barrel, while sales were moderate. "Heat was inactive and prices heavy, owing to the firmness in freight and the heaviness in sterling exchange. Corn was lower, but in fair demand, with sales of old Western mixed, in store, at 65c. a 65½c., and delivered at 66c. a 67c.; new white Southern at 62c. a 74c. Flour was quiet, while prices were steady. Sales of men were made at \$17 50 and new prime at \$18. Sugar was dull, with sales of 400 a 500 lbs. Cuba, at about 50c. per barrel, while sales were moderate. "Heat was inactive and prices heavy, owing to the firmness in freight and the heaviness in sterling exchange. Corn was lower, but in fair demand, with sales of old Western mixed, in store, at 65c. a 65½c., and delivered at 66c. a 67c.; new white Southern at 62c. a 74c. Flour was quiet, while prices were steady. Sales of men were made at \$17 50 and new prime at \$18. Sugar was dull, with sales of 400 a 500 lbs. Cuba, at about 50c. per barrel, while sales were moderate. "Heat was inactive and prices heavy, owing to the firmness in freight and the heaviness in sterling exchange. Corn was lower, but in fair demand, with sales of old Western mixed, in store, at 65c. a 65½c., and delivered at 66c. a 67c.; new white Southern at 62c. a 74c. Flour was quiet, while prices were steady. Sales of men were made at \$17 50 and new prime at \$18. Sugar was dull, with sales of 400 a 500 lbs. Cuba, at about 50c. per barrel, while sales were moderate. "Heat was inactive and prices heavy, owing to the firmness in freight and the heaviness in sterling exchange. Corn was lower, but in fair demand, with sales of old Western mixed, in store, at 65c. a 65½c., and delivered at 66c. a 67c.; new white Southern at 62c. a 74c. Flour was quiet, while prices were steady. Sales of men were made at \$17 50 and new prime at \$18. Sugar was dull, with sales of 400 a 500 lbs. Cuba, at about 50c. per barrel, while sales were moderate. "Heat was inactive and prices heavy, owing to the firmness in freight and the heaviness in sterling exchange. Corn was lower, but in fair demand, with sales of old Western mixed, in store, at 65c. a 65½c., and delivered at 66c. a 67c.; new white Southern at 62c. a 74c.
